LICA National is introducing a **new member benefit** through a partnership with **ConX-USA**, a workforce labor-sharing and management platform built for the construction and skilled-trades industry. This partnership comes in direct response to the labor shortages and workforce visibility challenges contractors continue to face.

What ConX-USA offers:

- **Access to a national labor-sharing network**
- **Tools to manage staffing needs and reduce downtime**
- **Better visibility into workforce availability**
- **Stronger collaboration across local and regional markets**

What this means for you:

Your LICA membership now includes a FREE ConX-USA account. There is no cost to join or maintain your account, and you can begin using the platform as soon as you activate it.

You'll receive an email from ConX-USA with instructions to verify your email and complete setup. If it doesn't appear within 10 business days, check your spam or junk folder.

For questions, contact ConX-USA directly at support@conx-usa.com.
